

Shower Tray and Bath Sealing Kits

More Durable • More Flexible • More Hygienic • More Attractive
than exposed sealants and "soft lip" bath trims

BS 5385

Meets BS 5385
Recommendations

THE BENEFITS

Flexibility

Bond-breakers release the silicone off the inside walls of the trim allowing joint movement between the ledge & wall

Durability

The sealant is protected inside a durable trim from exposure to the modern hostile shower environment

Hygiene

The sealant is concealed and does not attract bio body wash & debris

Aesthetics

No exposed sealant, slime or mildew, just an unobtrusive seal that looks great!

Sealux Pro 25
